The new reform of the New York, New Haven and Hartford Railroad, prohibiting anybody who basn't a ticket or pass from going through the doors of the waiting room to the trains at he Grand Central Station, has attrred up the se of the officials of the three roads. It may result in determining where the responsibility of depot management lies. As yet it is very warbody concerned pronounces the new rder an outrage. The New Haven officials are sees than anybody else in denouncing it. describ Manager Platt of the station said on sturday that he issued the order simply as the result of the conclusions of his superiors.
Corpellus Vanderbilt, Chauncay M. Depew, and Charles P. Clark, the chiefs of the three roads pains the depot. The President of the New Jork Central wouldn't be understood for a Jork Central wouldn't be understood for a moment as causing inconvenience to passen-gers by shutting out their friends from admis-sion to trains. Who, then, runs the station? President Charles P. Clark of the New Haven gold, after reading the article in Sunday Bun, came to New York yesterday and made

He saw for himself the confusion in the waiting from:

"The order is all news to me," he said with
surprise. "I didn't authorize it, but I would

like to throw off the responsibility of accident or trauble at this terminal. It is only a
sensat it says, and the landlord is the responsible party. If it had been a New York
coarsi train in the tunnel collision the New
layse Company would have said: "That is
nothing to us—it is not our terminal." The
Central would have replied: President
Cirk, at any rate, is responsible because, in
order to be reriecily impartial to the three
roads the denot property has been set apart,

The trouble with this separation of the depot
authority i- that the chief of the New Haven

figuralively speaking, but not the losses. He
does not want to be responsible for accidents
that happen to record who have nothing to do
with he company's trains and who are not
passengers. He has no interest in the depot

should he hold himself responsible for any
section that the come-along when his company
has no connection with it?

President that come-along when his company

office boy could then run the Grand Central Station.

The new arrangement was interesting, about 11 A. M. yesterlay, when a great crowd of girls came in with their parents and brothers and sisters. They were going out on the New Hayan road to a private seminary. The school bajust responsed after the spring veaction, and their friends had come to see them off, with happy faces they made a rush to see who could get through the door to the train first, children and parents intermingled.

Tickets please!

Oh, we're just going through to see the girls safe on their way, as we always do," said a carciul mother.

"That isn't allowed any more," remarked the doorman, who felt a prick of conscience. "Im ve, y sorry."

"Oh, what a shame!" spoke up several women who were inst near enough to hear.

The explanation had to be repeated over and over and the door was blocked by the parents taking leave of their children so that it was a long time before they all got through. Some of the girls were mere children carrying heavy.

An old gentleman came to see his wife off for Lenox on the S.A. M. Boston Express train. He was disappointed that he was not allowed to help his wie on. He found a way around it. He went to the ticket office and bought a ticket for Boston, aying 55 for it. Then he went through. He said after the train left, that he heaself was going to Boston at 11 P. M. Many people have bought tickets to local points just for the sake of passing through the door to see their friends off. Of course they are so much out of pucket.
